#### Design it online

To design your perfect fireplace insert or view videos of the fire in action visit www.mendotahearth.com

NOTE: Not all fireplace inserts are shown with barrier screens. Flames may vary in appearance based on location and fuel type.

# Luxury where you live

There's much to love about a Mendota luxury gas fireplace insert. It begins the first time you turn it on and are instantly rewarded with the incredible, authentic fire, the memory of messy ashes and hours spent stacking and storing wood vanquished with the touch of a button. Then there's the quiet confidence of knowing every Mendota fire burns with a century-old tradition of craftsmanship and gas technology, where details such as true full seam welding, heavy-gauge steel and careful hand assembly deliver on the promise of a lifetime of comfort. But it's the moment you linger in the doorway that the feeling of luxury truly hits home. The realization that your Mendota fireplace indulges you with ease, warmth and great satisfaction each and every day. That's not just

luxury—it's luxury where you live.

# Endless possibilities start here

Mendota FullView Décor gas fireplace inserts let you create a room with the colors, textures and shapes you love, using elements like glass fire stones, natural river rock or panoramic panels that expand and amplify the nuances of the fire. Their stunning aesthetics are matched only by their efficient performance—replacing drafty, messy and inconvenient woodburning fires with today's high-efficiency green technology. The possibilities are virtually endless, but the end result is distinctively you.

# Frame it in style

Whatever mood you wish to create, Mendota offers you a choice of fronts and doors.

Frame your FullView Décor fire in a wide range of colors and finishes—from rugged

Vintage Iron to contemporary Swedish Nickel.

# An elegant gas fireplace insert that's smarter, too

Designed for those who are looking to make a statement with their hearth, Mendota Décor lets you transform your traditional fireplace into an elegant, sophisticated art form. It creates a refined atmosphere in any room, featuring century-old Mendota craftsmanship and exclusive Mendota BurnGreen<sup>™</sup> convenience and efficiency.

# Rediscover relaxation

Do you have a woodburning fireplace that never gets used because it's inefficient and difficult to tend?

Reclaim the warmth and relaxation that gentle flames bring to a room with a Mendota gas fireplace insert. Bring your old fireplace back to life. Gather around a Mendota fireplace insert and rediscover the charm and comfort you've been missing.

# Our FullView fire belongs in your room

Mendota's FullView design accentuates the

fire and minimizes the insert integration. Your

guests will never know your fireplace isn't

original to your house. Unless you can't resist

bragging about how easily your Mendota

dealer installed it.

# Mendota's high-efficiency BurnGreen™ system

Mendota FV33i and FV44i FullView fireplace inserts
with the BurnGreen™ burner/remote control system
are ANSI/AGA certified high-efficiency gas wall
furnaces and give you complete control. With the
touch of a button, you can turn the burners and the
pilot on and off, adjust the heat and blower output,
and even turn off the rear burner on mild days. You
can also automatically control room temperature
using the remote control's digital thermostat.
BurnGreen™ means burning smarter, giving you
choices to conserve fuel and help the environment.

Concrete Flat Panel

Desert Flat Panel

Espresso Flat Panel

# Like an old friend

There's nothing quite like coming home and warming up by a roaring fire. Like a long-standing friend, the

Mendota D Series gas fireplace insert greets you with familiar warmth and styling. It's available in two sizes

to fit most existing fireplace openings. Both models feature sealed combustion and direct vent technology that keeps warm air in and cold air out. With Mendota's Lifetime Limited Warranty, you can count on your D Series fireplace insert to always be there—providing trustworthy and reliable warmth. When you experience a friendship this good, it's good to know it will last a lifetime.

# Focus on the fire

Mendota's beautiful log fire is the result of years of research and development. It begins with a careful selection of actual field logs, hand-molded to capture every intricate detail. Each log is hand-painted

using a palette of eight colors and arranged to create the exact look and feel of a wood log fire in its most beautiful burning stages. Go from a roaring fire with lots of heat to the lazy flames of a late night campfire, all with the touch of a button. In the end, there's just you and the beautiful fire—the way the experience was always meant to be.

## A guide to selecting your favorite front

A big part of the Mendota fireplace experience is choosing just the right front, doors and accessories.

The excitement of seeing how their shape and color come together to transform your room. Mendota makes it easy to discover which fronts, doors and finishes are available for your fireplace insert. Explore the charts below, or visit www.mendotahearth.com to design your perfect fireplace online.

### Mendota gas fireplace insert sizing diagram

When it comes to finding the right gas fireplace insert for your home, aesthetics and heat output are equally important considerations. This chart provides a quick reference for relative scale, but your Authorized Mendota Dealer will help you choose the perfect size based on your climate, floor plan and lifestyle.

Glass Frame Dimensions: 27 7/8" W x 17 3/8" H

Glass Frame Dimensions: 31 1/2" W x 22 3/8" H

D30

Glass Frame Dimensions: 29 7/16" W x 14 1/8" H

Glass Frame Dimensions: 35 13/16" W x 16 5/8" H

### Mendota sealed combustion, direct vent technology

Mendota's sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated. The system keeps warm air in and cold air out. This assures high air quality, maximum efficiency and trouble-free operation in today's tight homes.

Adding a Mendota fireplace insert can also warm up the value of your home. In addition to the efficiency you'll enjoy from installing a fireplace insert in your home, you can also increase its overall value.

According to a 2013 National Association of Realtors® homebuyer survey, fireplaces are among the most-preferred features in a home. Almost 40% of those surveyed said they would actually pay extra for a house with at least one fireplace. What's more, a 2012 National Association of Home Builders (NAHB) survey showed that more than half of homebuyers said a fireplace was an essential or desirable feature.

And with a wide variety of sizes and styles available, there's a Mendota fireplace insert that's perfect for increasing your home's value.

### BurnGreen™ comfort control, with just a simple touch

Mendota's environmentally friendly, sealed combustion, direct vent fireplaces with the BurnGreen<sup>™</sup> system are designed to meet exacting governmental EPA standards, as well as national LEED<sup>®</sup> and NAHB guidelines for high efficiency and low emissions. BurnGreen<sup>™</sup> means burning smarter, giving you choices to conserve fuel and help the environment. It allows you to easily:

- Turn the pilot and burners on and off
- Adjust the heat output to your comfort
- Turn the blowers on and off or adjust blower air output
- Turn the FireLight on and off

You can accurately control room temperature using the remote control's smart digital thermostat. Simply set the temperature, and the burner will automatically turn down as room temperature nears the set temperature, eliminating "spikes."

NOTE: Remotes vary by model. Ask your Authorized Mendota Dealer which remote is included with your Mendota fireplace insert.

# Save energy by "zone heating" with a Mendota gas fireplace insert

#### Heat the room you use the most

With an energy efficient Mendota gas fireplace insert in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth and fascination of Mendota's award-winning log fire, and save valuable dollars on your energy bill.

# FireLight accents your hearth, with or without flames

#### Included with select models

Use our FireLight accent lighting system when the fire is on to add extra drama and detailing to the interior lining and fire base. Or enjoy the ambiance and gentle glow without flames or heat during warmer months.

### With Mendota, beauty and safety go hand-in-hand

Pair education with our factory-provided screens to enjoy your Mendota, safely

Nothing brings families together like a Mendota fireplace in a favorite gathering spot. That's why we make fireplace safety a top priority. Together, we can make sure you and your loved ones enjoy every moment around the hearth without worry.

First, take a moment to educate children about the dangers of fire, and teach them to never touch the hot glass or metal surfaces surrounding the fireplace.

To further promote safe use, all Mendota products are in compliance with government safety screen regulations. Each safety screen has been carefully engineered to keep little hands away from hot glass surfaces while still allowing you to fully enjoy the view of the beautiful Mendota flames.

Keep in mind that while the screens provide an effective safety barrier from the glass, the screens themselves can retain heat for some time after turning off the fire. Be sure to let your fireplace insert cool completely before attempting to touch it.

Select fronts, including Grace and Willowbrook, feature our new micro safety screen that virtually disappears once installed over the fireplace insert.

#### See why Mendota fireplace inserts are among the most efficient in the industry

#### Get the lowdown on high efficiency to make the smart choice

Much like comparing miles per gallon when buying a new vehicle, fireplace efficiency ratings tell you a lot about how much gas a particular fireplace will consume as you use it. But beware—not all fireplace manufacturers use the same rating system.

The best way to determine the efficiency of a gas fireplace insert is to ask for its rating based on the CSA P.4 test method. This accurate measurement reflects the overall operation of the fireplace insert, taking into account its use and performance throughout the entire heating season. Tests using this Canadian standard for measuring annual fireplace efficiency show that while some units operate in the 30% range, the better units range from 70-90%.

With P.4 fireplace efficiency ratings ranging from 73.1% to 82.0%, Mendota fireplace inserts are among the industry's most efficient and represent a smart choice for your home. Download all independent fireplace ratings from the Canadian P.4 EnerGuide website at **www.oee.nrcan.gc.ca** (search for Mendota).

### Your home deserves a Mendota

Whether you're updating a room or completing a major remodel, it's important to choose a gas fireplace insert that complements your home and your style. Why?

- A fireplace insert is a once-in-a-lifetime purchase that's permanently installed in your home. It's not something that you replace every so often like a car or television.
- A fireplace insert is the center of attention in the most important room in your home something you'll see and enjoy every day.
- A fireplace insert is a product from which you expect a high degree of performance and safety.
